

WILLIAM WEPPNER

HARLEY TECH · ENGINE PARTS INSPECTION · ASSEMBLY

702-863-2885 weppner58@gmail.com Los Angeles, CA IG @will.i.am.158

Twenty-plus years in motorcycles, starting on the bench. **Founded and ran Faction MX**, an aftermarket four-stroke engine components company (stainless valves, valve springs, IN.EX valve kits), and sold it to Motorsport Aftermarket Group. Later **Product Manager for Harley-Davidson Touring, CVO and Trike**. I ride a Harley daily, build my own, and race motocross at the expert level. Looking for hands-on work in a shop that takes engine parts as seriously as I do.

EXPERIENCE

Faction MX

2004 – 2011 · Founder / Owner

Aftermarket four-stroke engine components: stainless valves, valve springs, IN.EX valve kits

- Built the company from a one-man operation into an acquired brand. Sold to MAG in 2010, stayed through integration.
- Developed and specified valvetrain components; checked incoming parts against print before they were kitted and shipped.
- Ran inspection, assembly, kitting and packaging, inventory, dealer orders and customer tech support.

Harley-Davidson

2019 – 2020 · Product Manager, Touring / CVO / Trike

- Owned MY20 Touring, MY21 CVO and MY22 Touring programs, plus MY23–25 platform planning.
- Worked daily with H-D engine, chassis and styling teams on Milwaukee-Eight platform content.

American Honda

2013 – 2019 · Product Planning, CRF and CBR lines

- Sales planning lead for CRF450R, CRF250R, CRF450R Works Edition and CRF450L.
- Earlier: Honda R&D Americas product planner (Talon, Grom, Africa Twin, CBR1000RR).

Motorsport Aftermarket Group

2010 – 2012 · Marketing Manager / R&D

- Ran Faction MX and Dragonfire Racing inside MAG; developed UTV safety and performance parts.

Also

2020 – 2024

- Director roles at Super73, Sena Technologies (H-D helmet program) and LID Technology. Currently an independent product liability consultant, part time.

HARLEY WRENCHING

- 2020 FXLRS frame-up build: full harness rebuild (DR-25, Raychem), Brembo master cylinders, monoblock calipers, Öhlins rear shock.
- Second FXLRS build underway: 49mm fork conversion, Kraus clamps, S&S exhaust, FXRT-style bodywork.
- Own and ride an FXLR daily. Comfortable with M8, Twin Cam and Evo era bikes.

ENGINE & SHOP SKILLS

- Four-stroke valvetrain: valves, springs, retainers, keepers, seats, guides, cams and lifters
- Precision measuring: micrometers, calipers, dial indicators, spring testers
- Parts inspection to print, assembly, kitting, packaging, inventory control
- Reads engineering drawings and spec sheets; writes clean paperwork
- Fabrication and wiring: motorsport-grade harness work, mockup and fitment

RIDING

- Motorcycle license, 25+ years on the street
- Expert-level motocross racer, #158
- Off-road, MTB and action sports; ride with helmet, boots and brain intact

EDUCATION

Mechanical Engineering coursework

Oklahoma State University · Southern Utah University
